THE PROBLEM — REAL EVIDENCE FROM INDIA

Photos taken at actual venues across India — crores of people face this every single day

✗ "Bag, Phone Jama Kiye Jaate Hain" — Roadside shop outside Exam Center.
No receipt, no proof.

⚠ "Luggage Deposit / Mobile Deposit" counter — manual process, no QR, no WhatsApp, no digital trail.

THE SHOCKING TRUTH:

86 lakh+ students sit competitive exams every year — NTA officially confirms **ZERO** official storage at any exam center in all of India

THE PROBLEM — TEMPLES & RELIGIOUS VENUES

7.5 lakh temples in India — lakhs of devotees leave belongings with zero digital tracking, every day

⚠️ Hundreds of metal tokens — manual locker chaos. Get lost, mixed up, forged. Zero digital record

📄 Paper/metal slips get lost, forged, unreadable — zero audit trail

👤 No parent/guardian alert — zero visibility when student deposits or collects

🔒 No photo proof — zero recourse if item is lost or wrongly returned

MARKET OPPORTUNITY

India's completely unserved belongings-management market — 10 lakh+ venues, zero digital solution

 **86L+**

Exam Students/Year

JEE+NEET+SSC — ZERO official storage at any center

 **7.5L+**

Temples in India

~6.5L documented · IIT Bombay research data

 **3L+**

Mosques + 7,657 Gurdwara

All religious venues need deposit management

 **106**

National Parks

+ 573 Wildlife Sanctuaries across India

 **1,001**

Amusement Parks

Registered in India · Oct 2025 dataset

OUR SOLUTION — SafeTag

India's First Hardware-Free Belongings Management Platform · Deployed & Live since April 2026

KEY WIN: Competitors (SafeCloak/Tuckit) need **₹1–2 Lakh hardware per venue**. SafeTag needs **ZERO** — any phone/tablet works. Same-day go-live. Anywhere in India.

User Panel

No app download ever needed. Visitor walks to counter → staff registers → gets QR slip + WhatsApp receipt instantly. Zero friction for visitor.

Operator Panel

Staff registers items, captures AI photo proof, manages live dashboard, scans QR for verified return. Offline name/phone search fallback built-in.

Admin Panel

Approve venues across cities, monitor all deposits in real-time, broadcast WhatsApp alerts, export CSV audit reports. Full platform control.

KEY FEATURES

AI Item Detection

Google Vision API auto-detects Watch, Mobile, Bag, Wallet, Keys, Camera from photo. Auto-fills checklist with green badge confirmation.

QR + WhatsApp Receipt

Unique QR token (ST-EXAM-00004) per deposit. Thermal print + WhatsApp delivered simultaneously. No app download — ever.

Photo Proof System

Operator photos item at deposit. Same photo shown at return for mismatch detection. Complete anti-fraud protection built into the workflow.

Guardian WhatsApp Alerts

Real-time to parents:  Check-in confirmed
→  Stored →  Reminder → 
Returned. Parents always know. Full peace of mind.

Thermal Print Support

58mm & 80mm thermal printer CSS support. Works with any existing USB thermal printer at venue. Zero new hardware purchase needed.

Manual Fallback

QR lost? Phone dead? Search by visitor name or phone number. PWA offline cache ensures 100% reliability even without internet.

WHY SAFETAG WINS

Head-to-head vs SafeCloak & Tuckit — the only two existing players in this space

Feature	SafeCloak / Tuckit	SafeTag ✓
Hardware Cost	₹1–2 Lakh per unit required	ZERO — web app only
Go-Live Speed	Weeks (physical installation)	Same Day — instant setup
Exam Centers	✗ Not served at all	✓ Primary target market
Tier-2/3 Cities	✗ Very limited reach	✓ Fully accessible everywhere
AI Item Detection	✗ Not available	✓ Google Vision API — live
Guardian Alerts	✗ Not available	✓ WhatsApp real-time — live
Photo Proof	✗ Not available	✓ Built-in — live today
Monthly Venue Cost	Hardware + maintenance fees	✓ Zero — software subscription

💡 SafeCloak serves ONLY Shirdi, Udupi, Mantralaya (hardware barrier). SafeTag's software-only model reaches all 10 lakh+ venues on Day 1.

LIVE PLATFORM — REAL DATA

Not a concept. Not a prototype. Functional MVP with simulated real-world workflows

TECHNOLOGY STACK

Production-grade, industry-standard stack — built to scale from 11 venues to millions across India

Frontend

Next.js 14 + Tailwind CSS + shadcn/ui — Mobile-first, PWA enabled, dark/light mode

Backend

Next.js API Routes — Fullstack, same codebase, no separate server infrastructure needed

Database

MongoDB + Mongoose ODM — Horizontally scalable to millions of concurrent deposits

Auth

Twilio Verify — Phone OTP only. No passwords stored anywhere. Eliminates entire breach class

AI Detection

Google Cloud Vision API — Object detection maps to item categories. Auto-fills checklist

Notifications

Twilio WhatsApp Business API — Real-time visitor + guardian alerts, delivery confirmed

Photo Storage

Cloudinary CDN — All proof photos stored encrypted with tamper-proof secure access URLs

Deployment

Vercel — Auto-scaling, Global CDN, 99.9% uptime SLA, automatic HTTPS on all endpoints

Security: Phone OTP only · UUID tokens (can't be brute-forced) · QR auto-expires after return · Row-level access control · Encrypted photos on Cloudinary ·

HTTPS enforced by Vercel

BUSINESS MODEL & IMPACT

Per-Use Fee

₹10–30

per deposit

Visitor pays at drop-off — same model as parking ticket. Scales automatically with venue footfall.

Venue Subscription

₹299–999

per month / venue

B2B SaaS for exam centers, temple trusts, park authorities. Recurring, predictable revenue.

Micro-Insurance

₹10

per deposit (Phase 2)

Optional ₹5,000 item cover — high-margin upsell at checkout. Phase 2 revenue pillar.

 Zero hardware cost = **profitable from Day 1** — competitors must recover ₹1–2L hardware cost first. Every rupee SafeTag earns is margin.

Social Impact

- Students focus on exam, not belongings
- Parents get real-time peace of mind
- Eliminates unsafe roadside shopkeeper reliance
- Reduces theft at all restricted venues

Economic Impact

- Zero hardware = profit from Day 1
- B2B venue subscriptions — monthly recurring
- NTA / Govt partnership opportunity
- ₹10–30 per transaction at crore-user scale

Innovation Edge

- India's first AI photo proof in this segment
- Software-only unlocks all 10 lakh+ venues
- Multi-venue-type scalable architecture
- First-mover in a completely untapped market

ROADMAP & FUTURE VISION

From 11 venues today → Pan-India platform → Government partnership → Global

NOW — LIVE

Phase 1

Done

- Web platform: QR + AI + WhatsApp deployed
- 11 venues, 9 cities — live deposit data
- 4 active venue types with real transactions
- PWA installable — works offline too

Next 3 Months

Phase 2

Building

- Mobile app (React Native) iOS + Android
- NTA partnership for official exam storage
- Micro-insurance ₹10/deposit, ₹5K cover
- Venue rating and review system

6 – 12 Months

Phase 3

Vision

- IoT smart locker connectivity (optional)
- Pan-India franchise for temple trusts
- Govt API — admit card QR verification
- Multi-language: Hindi, Tamil, Telugu, Bengali

"Apna saman surakshit rakho — bina locker ke"
